

As President of Decision Women in Commerce and Professions let me convey to you why you should consider becoming a member of Decision. We are a dynamic group of Long Island business owners and professional women, functioning in decision-making and administrative positions, who have achieved success in our chosen endeavors. Now utilizing the skills developed in our professional lives, Decision members work together to foster educational opportunities for women, engage in projects that promote the best interest and welfare of the community and provide mutual aid and support, as well as a networking system, for our membership.

Founded in 1979 by several women business owners in the Town of Brookhaven, Decision has established a 32-year history of adding value to our communities, our businesses and ourselves. Networking at monthly meetings helps Decision members organize special fundraising projects for community services in need. To date Decision donations have been given to 125 community charities and institutions on Long Island. Establishing friendships through our work together as Decision members has fostered a networking system of support and business opportunities.

Our monthly meetings are held at various local restaurants. Please consider joining us to meet the members of Decision Women in Commerce and Professions and see the difference we all can make together for our community, our business and ourselves.

Cordially,
Celeste Siemsen, President

You are invited to join

Write to:
